Alphabetical Classification List

(key word list)

Revised March 2010

Aborigines, Health Care for ........................................ 9.5.4
Aborigines, Research on ............................................ 18.5.1
Aborted Fetuses, Research on ..................................... 18.5.4; 12.1
Aborted Fetuses, Tissue Transplantation from .................. 18.1; 18.5.4; 12.1
Abortion, Access to .................................................. 12.5.1 (9.2; 12.4.1 or 12.4.2)
Abortion, Attitudes Toward .......................................... 12.5.2
Abortion (Bills, Laws and Cases) ................................... 12.4.4
Abortion Counseling ................................................... 12.5.3
Abortion, Demographic Surveys on ............................... 12.5.2
Abortion, Financial Support for .................................... 12.4.1; 9.3.1
Abortion, General ...................................................... 12.1
Abortion, Legal Aspects of, General ............................... 12.4.1
Abortion, Legal Interests of Father in ............................ 12.4.2
Abortion, Legal Interests of Health Personnel in ............... 12.4.3
Abortion, Legal Interests of Institutions in ...................... 12.4.3
Abortion, Legal Interests of Woman in ........................... 12.4.2
Abortion, Moral Aspects of ........................................... 12.3
Abortion, Parental Notification ...................................... 12.4.2; 8.3.2
Abortion, Partial Birth ............................................... 12.1
Abortion Pill (RU-486) ............................................... 12.1; 9.7
Abortion, Position Statements on .................................. 12.2
Abortion, Political Aspects .......................................... 12.5.1; 21.1
Abortion, Psychological Aspects of ............................... 12.5.1
Abortion, Public Opinion on ........................................ 12.5.2
Abortion, Religious Aspects of ..................................... 12.3
Abortion, Selective (in multiple pregnancies) .................... 12.1; 14.4
Abortion, Social Aspects of, General ............................... 12.5.1
Abuse, Child .................................................................. 9.5.7; 9.1
A.C., In re (1990) .......................................................... 9.5.5; 8.3.4
Academic Freedom ....................................................... 1.3.3
Academic-Industrial Cooperation .................................... 5.3
Access to Abortion ....................................................... 12.5.1 (9.2; 12.4.1 or 12.4.2)
Access to Experimental Treatment by HMOs .................. 9.3.2 (9.2; 9.3.1; 9.4; 18.5.1)
Access to Health Care .................................................. 9.2 (9.3.1; 9.4)
Accountability in Dentistry .......................................... 4.1.4
Accountability in Medicine ............................................ 4.1.2
Accountability in Nursing ............................................ 4.1.3
Accounting Ethics ....................................................... 1.3.2
Acquired Immunodeficiency Syndrome (AIDS) .................. 9.5.6
Administrative Ethics, Business ..................................... 1.3.2
Administrative Ethics, Government ............................... 1.3.5
Adolescent Pregnancy ................................................. 14.1; 9.5.7; 11.2
Adolescent Sexuality ............................................... 10; 9.5.7
Adoption ....................................................................... 14.1
Adoption (confidence aspects) ....................................... 8.4
Adult Stem Cell Research .............................................. 18.7; 15.1 (19.4)
Advance Directives ...................................................... 20.5.4
Advance Directives in Psychiatry .................................... 17.1; 8.3.3; 8.3.4; (17.4; 17.7)
Adverse Effects, Disclosure of ...................................... 8.2; 9.8
Advertising and Physicians .......................................... 8.1; 13.2
Advertising, Drug ........................................................ 9.7; 13.2
Advertising Ethics ....................................................... 1.3.2
Advisory Committees, FDA ............................................ 9.7 (1.3.5; 5.3; 15.1; 1.3.11; 18.6)
Advisors, Patient .......................................................... 9.1
African Americans, Health Care for ............................... 9.5.4
Aged-Based Rationing ................................................... 9.4; 9.5.2
Aged, Health Care Programs for the ............................... 9.5.2
Aged, Home Care for ................................................... 9.5.2
Aged, Human Experimentation on ................................. 18.5.7
Aged, Long Term Care for the ...................................... 9.5.2
Agent Orange ............................................................. 16.1; 21.3
Aggression, Genetic Aspects .......................................... 15.6
Aggression Research ..................................................... 18.4 (15.6)
Agricultural Ethics ....................................................... 1.3.11
AID (artificial insemination by donor) .............................. 14.2
AIDS .......................................................................... 9.5.6
AIDS and Confidentiality .............................................. 9.5.6; 8.4
AIDS and Detainees ...................................................... 9.5.6; 9.5.1
AIDS and Immigration .................................................. 9.5.6; 21.1
AIDS and Impact on Blood Banks ................................... 9.5.6; 19.4
AIDS and Patient's Duty to Disclose ............................... 9.5.6; 8.1
AIDS and Physician's Duty to Warn ............................... 9.5.6; 8.4
AIDS and Prisoners ..................................................... 9.5.6; 9.5.1
AIDS and Obligation to Treat ........................................ 9.5.6; 8.1
AIDS Disclosure .......................................................... 9.5.6; 8.4
AIDS Drugs ................................................................. 9.5.6; 9.7
AIDS Drugs, Expedites FDA Approval ............................ 9.5.6; 9.7; 18.5.1
AIDS from Blood Transfusion ....................................... 9.5.6; 19.4
AIDS in the Workplace ................................................ 9.5.6; 16.3
AIDS, Occupational Exposure ....................................... 9.5.6; 16.3
AIDS Screening .......................................................... 9.5.6; 9.1
AIDS Stigma ............................................................... 9.5.6; 7.1
AIDS Vaccines ............................................................. 9.5.6; 9.7
AIDH (artificial insemination by husband) ......................... 14.2
Alcohol Abuse ............................................................. 9.5.9

Note: Classification numbers in parentheses may be used to refine the search.
Bioethics Research Library Alphabetical Classification List

Negligence, Laboratory ........................................... 9.8; 8.5
Neonates (in transplantation) ................................. 19.5; 20.2.1
Neural Tube Defects ............................................. 9.5.1; 15.1
Neuroenhancement .................................................. 17.1; 4.5 [can use other 17s as primary]
Neuroethics .......................................................... 17.1; 4.4 (4.5; 17.4; 15.1)
Neurosciences, General ............................................ 17.1
New York State Office of Mental Health, T.D. v. (1997) .................................................. 17.4; 8.3.3; 18.4
Newborns, Allowing to Die ........................................ 20.5.2
Newborns, Health Care for ........................................ 9.5.7
Newborns, Research on ............................................. 18.5.2
No-Code Orders ...................................................... 20.5.1
No-Fault Compensation ............................................ 8.5; 9.3.1
Nobel Sperm Bank ................................................... 15.5; 14.6
Non-Beating Heart Donors ................................. 19.5; 20.2.1 (19.2)
Non-Compliance ..................................................... 8.3.4
Nonmaleficence ....................................................... 1.1
Nontherapeutic Research, General ......................... 18.1
Norman-Bloodsaw v. Lawrence Berkeley Laboratories (1998) ........................................ 15.3; 18.4
Norplant (5-year contraceptive implant) ............ 11.1; 9.7
Norplant (as part of a criminal sentence) ........ 11.1; 9.7; 1.3.5
Nuclear Power ......................................................... 16.2
Nuclear War ............................................................ 21.2; 16.2
Nuclear Weapons ..................................................... 16.2; 21.2
Nuremberg Code .................................................... 19.2; 18.3; 6 (21.4)
Nurses' Participation in Euthanasia during the Nazi Period .......................................................... 214; 1.3.5; 2.2; 20.5.1 (4.1.3; 7.1)
Nurse-Patient Relationship ...................................... 8.1; 4.1.3
Nurses, Professional Ethics ..................................... 4.1.3; 1.3.1
Nursing as a Profession ............................................. 4.1.3
Nursing Education .................................................. 7.2
Nursing Ethics ......................................................... 4.1.3
Nursing Ethics, History of ....................................... 2.2; 4.1.3
Nursing Homes (Aged) .............................................. 9.5.2
Nursing Homes (Mentally Disabled) ................. 9.5.3
Nursing Homes (Physically Disabled) ..................... 9.5.1
Nursing Homes ....................................................... 9.5.1
Nursing, Philosophy of ............................................ 4.1.3
Nutrigenomics, GMOs in ........................................... 15.1; 1.3.11
Nutrigenomics, Health Issue (e.g. allergy) .......... 15.1; 9.5.1
Nutrition (artificial feeding) .................................... 20.5.1
Oath, Hippocratic ..................................................... 6 (4.1.2)
Obligation to Treat, Health Professionals' .......... 8.1
Obligation to Treat AIDS Patients, Health Professionals' .................................................. 9.5.6; 8.1
Obligations to Future Generations ................. 16.1
Occupational Drug Testing ...................................... 16.3; 9.5.9
Occupational Exposure to AIDS ......................... 9.5.6; 16.3
Occupational Health ................................................ 16.3
Occupational Screening .......................................... 16.3; 9.1 (15.3)
Oocyte Donation .................................................... 14.2 (14.6)
Operant Conditioning ............................................. 17.3
Organ Banks .......................................................... 19.5
Organ Donation ...................................................... 19.5
Organ Procurement ................................................ 9.5
Organ Transplantation, General ....................... 19.1
Organs, Trafficking of ............................................. 19.5
Organs, Artificial, General ...................................... 19.1
Organs, Marketing of .............................................. 19.5; 9.3.1 (1.3.2)
Organs, Sale of ...................................................... 19.5; 9.3.1 (1.3.2)
Organic Drugs ......................................................... 9.7; 9.3.1; 1.3.2
Outcomes Prediction .............................................. 9.8
Outpatient Commitment .......................................... 17.7
Ova, Cryobanking (freezing) ............................... 14.6
Ovum Donation ........................................................ 14.2; 19.5 (14.6)
Ownership of Body Parts ........................................ 4.4 (19.5)
Package Inserts, Patient ........................................... 8.2; 9.7
Pain ................................................................. 8.3; 9.7.1
Palliative Care for Children ...................................... 20.4.2
Palliative Care, Non-Terminal Illness ..................... 4.4; 9.5.1
Palliative Care, Terminal Illness ........................... 20.4.1
Pancreas Transplantation ........................................ 19.1
Pandemics ............................................................ 9.1; 21.1
Parental Consent ..................................................... 8.3.2
Parental Notification - Abortion ......................... 12.4.2; 8.3.2
Parental Notification - Contraception ....................... 11.2; 8.3.2
Parental Rights ...................................................... 8.3.2
Parenteral Feeding .................................................. 20.5.1
Parenthood ........................................................... 14.1
Partial Birth Abortion .............................................. 12.1
Participation of Nurses in Euthanasia during the Nazi Period .......................................................... 214; 1.3.5; 2.2; 20.5.1 (4.1.3; 7.1)
Passive Euthanasia .................................................. 20.5.1
Pastoral Care .......................................................... 9.1; 1.2
Patenting Animals .................................................. 15.8; 22.2 or 22.3
Patenting Body Parts and Fluids ......................... 15.8
Patenting Organisms ................................................ 15.8
Patenting Surgical Procedures .................................. 5.3; 9.1
Patents ................................................................. 5.3
Patents, Genetic ....................................................... 15.8
Paternity Health Care Policies ............................... 9.1
Paternity Tests ........................................................ 14.1; 15.1
Patient Access to Medical Records ..................... 8.2
Patient Admission .................................................. 9.2; 9.3.1
Patient Advocates ................................................... 9.1
Patient, Care of the Dying, General .................... 20.4.1
Patient Compliance ................................................ 8.3.4 or 9.5.9
Patient Dumping ..................................................... 9.3.1; 9.2
Patient Package Inserts ........................................... 8.2; 9.7
Patient Professional Relationship, General ........... 8.1
Patient Relationships ............................................... 8.1
Patient Safety ........................................................ 9.8
Patient Satisfaction/Preference ............................. 8.1; 9.8
Patient Self Determination Act ............................. 20.5.4

Note: Classification numbers in parentheses may be used to refine the search.
