Readings: ELS chs. 1, 2 (pp. 3-19) and 10 (pp. 143-51)

We will not have a Skills Lab on Tuesday, August 21. The first class will be the large-group class on Thursday, August 23.

Before that class, please register for the course on TWEN. I have posted on TWEN the course syllabus and assignments for large-group classes and skills labs.

In our August 23 class, I will start by reviewing the goals of this course and providing a general overview of the topics we will cover. I will also answer any questions about the course, the syllabus, or evaluation process.

Then, I will show the class a clip from a film and ask you to identify all the significant facts that are shown. For this exercise, we will focus on the discussion in chapter 10 of the text.
